

"This is my plea, my appeal:

We all are present in each other. Holographically, we embody all. We are enormously powerful together. I invite the group avatar to the power of oneness and to **tap** and **use** that power. When you do, you tap into the unity and power of all creation.

We may go out into our seemingly individual worlds, but when conscious and aware of our group oneness, there's **nothing** that can't happen. **Everything** is possible. The Rule of Oneness is: 'As I am, so we are. As you are, so I am.' Any blessing you have is also here for me, and vice versa.

You are never alone. You can call (in spirit) to anyone or all for help, support, love, healing, family nurturing, talents, etc. You are the We, the All, the One, the Us. Open to the resources, talents and gifts of the others.

My plea is that you will open to and go for the unlimited power of our Oneness!"
