

THE SOUL IS ...

~ Thoughts about the nature of the soul, created by **Bill Bauman** ~

The soul is ...

- the infinite presence, radiating its splendor ... within us
- the divine quality of our own nature ... our God-Self
- the intimate echo of life's pure truth, love and power

The soul is our ...

- inner voice ... our innate truth ... our inborn wisdom
- personal guide ... trusted counselor ... deepest friend
- treasure chest of love ... endless source of nurturing
- wellspring of inner peace ... serene place of silence
- true Center ... grounded core ... real self
- dependable home ... truest identity ... innermost being

The soul is where ...

- we experience the beauty and wonder of life
- we see into the truth of every human being
- we are one, totally one, with all life
- we taste and experience life's deepest truths
- we meet, embrace and support everyone and everything
- we feel the divine living, resting and loving — within us
- we remember ... everything ... yes, everything

The soul is our source of ...

- *power* — to heal anything in ourselves and others
- *authority* — to take charge of ourselves, each moment
- *love* — for ourselves and for others ... unconditionally
- *truth* — to know everything we need to know, anytime

From within the soul, we can ...

- hear, feel and experience all life: divine, human and earthly
- know who we are ... what we are ... why we are ... where we are
- honor all creation, including and especially ourselves

*Your soul is the real, authentic you ... available to you at every moment, inviting you into your truth daily ... nurturing you continually ... and empowering you endlessly.
What is the soul? Simply put, it's who you are! It's the real you!*
